plaintiffs field specifications under the state statutes of 1862, as the supplies were furnished.

The United States and Brazil Steamship Company failed in February, 1893, and the Coal Company libelled the ships. The District Court, through Judge Brown, dismissed the libel on the ground that the Coal Company had not any maritime lien, and the State statute, if it was intended to create a lien as against foreign shippers, was unconstitutional, as interfering with the exclusive rights of Congress to regulate foreign commerce. The Coal Company then appealed to the United States Circuit Court of Appeals.
